Terms and Manner in Which We Do Business

Terms. Prices named herein are subject to the following discounts: Five per cent. allowed, to be deducted when cash accompanies order. To customers of improved credit accounts are payable 60 days from date of invoice, except where special prices and terms are arranged for. Potatoes, Grass, Grain, Clover and Bird Seed, Implements, Fertilizers and Insecticides are subject to no discount whatever, but are strictly net cash.

Orders are filled promptly upon receipt or a reason given with acknowledgment of same.

Prices. As it is impossible to predict our exact demand, our prices are made subject to change without notice and goods being unsold when order reaches us. We, however, carry very large stocks, and if orders reach us in good season, full satisfaction may always be expected.

C. O. D. orders can be sent only by express. Such orders should be accompanied by a remittance in part payment, to guarantee charges.

20 per cent. Reduction in Express Rates on Plants. Under the new ruling of the leading express companies, Plants, Bulbs and Seeds, packed in closed boxes or baskets, will now be carried at the "GENERAL SPECIALS" rate. This rate means a reduction of 20 per cent. from the regular merchandise rates to all points where no "General Specials" exists. To points where a "General Specials" rate is in force the companies make a special reduction. Shipments weighing less than 100 lbs. receive the benefit of the rate per 100 lbs., but the minimum charge is 35 cts. For instance, where the regular merchandise rate is \$4.00 per 100 lbs., a box of plants weighing 100 lbs. will be carried for \$3.20, a saving of 80 cts. on one shipment.

Important. While we exercise the greatest care to have all seeds and bulbs pure and reliable, we do not give any warranty, expressed or implied. If the purchaser does not accept the seeds and bulbs on these terms and conditions, they must be returned at once, and the money that has been paid for same will be refunded.

Cold Storage or Retarded LILIUM LONGIFLORUM.

With us the retarding of *Lilium Longiflorum* in cold storage is no longer an experiment, but an unqualified success. No stronger proof of this fact is required than the increasing demand we receive.

Grow Them Cold at First to Get Root Action. This is the principal secret and the point to be watched most closely, and is where growers sometimes make a failure at any month of the year. We do not recommend planting during June and July (on account of the temperature only), some growers not having a proper location in which to start them.

We can undertake to deliver sound, firm bulbs, any time during the year, and have demonstrated this fact for the past three years at the Society of American Florists' Convention, where we have exhibited (during the month of August) *Lilium Longiflorum* bulbs grown in Japan the year previous, and kept in cold storage for 12 months after being harvested.

The bulbs, when properly treated after planting, usually flower in 2 or 3 months, and coming into flower, as they generally do, out of season, they bring very fancy prices, and from the fact that very little heat is required, there is no expense for coal, which makes them a very profitable article to grow.

LILY OF THE VALLEY PIPS FROM COLD STORAGE. Rip Van Winkle Brand. We have quantities of this grade in cold storage the year round, and can ship at short notice at the following prices: \$12.50 per 1000, or \$30.00 per case of 2500, to which must be added 15c. per 1000 per month for cold storage after January 1st.

DWARF FRENCH OR CROZY CANNAS.

DORMANT ROOTS.

No plant of late years has become more popular and universally liked than the Canna, and it is a strange fact that whatever increased demand was anticipated by the trade, each year there has been a shortage of the best known sorts.

CANNAS WITH US IS A LEADING SPECIALTY. Since we disseminated the two first Italian varieties—Austria and Italia—in 1897, we have been looked upon as “headquarters” for dormant bulbs by the trade in general, which term we have every right to assume for the reason that we dispose of each year a considerably greater number than any other firm, and upon comparison of our prices with other houses, it will readily be discovered that it is to your advantage to place with us your orders.

ORDER EARLY. Although we grow very large quantities of most varieties, it is not wise to delay ordering—some sorts, being in greater demand than others, run short, which will prevent you securing a collection of the standard and best selling kinds at these very advantageous prices.

THE DORMANT ROOTS we offer are large, clean, healthy pieces, containing many eyes, and will stand subdivision, and must not be classed with the shrivelled-up small pieces of roots so often sent out.

ALSACE. The White Canna; a delicate sulphur-yellow, changing very soon to a creamy white, without spots. Per doz., 40c.; per 100, \$2.00; per 1000, \$15.00.

AMERICA. The first “Giant” flowering dark-leaved Canna. The beautiful foliage is of a bronze color with dark red hues and shining as if varnished. The flowers are enormous, beautiful glowing, purplish red, flamed and striped. Per doz., 75c.; per 100, \$5.00.

AUSTRIA. A giant, six feet high, with glorious, golden, lily-like flowers six to eight inches across. Per doz., 25c.; per 100, \$1.50; per 1000, \$12.50.

BEAUTE POITEVINE. A very fine dark crimson variety, with dark metallic green foliage and deep rich crimson flowers. A magnificent bloomer. Per doz., 50c.; per 100, \$3.00.

QUEEN CHARLOTTE. A very popular variety; color bright orange-scarlet, widely edged with golden yellow. Per doz., 35c.; per 100, \$2.00; per 1000, \$15.00.

MAD. CROZY. The flowers of this popular variety are of a brilliant crimson-scarlet, bordered with golden yellow. Foliage bright green, and very massive. Although of vigorous growth, the plant rarely exceeds 4 feet in height. Per doz., 40c.; per 100, \$3.00; per 1000, \$25.00.

PEACHBLOW. A dwarf Canna of recent introduction, and bears fairly large trusses of medium-sized flowers, of white changing to rose, with a distinct blotch of pink at the neck of the flower. Green foliage. Per doz., 35c.; per 100, \$2.00; per 1000, \$15.00.

MORNING STAR. A dwarf Canna, green foliage. Flowers similar in color to Florence Vaughan—a bright yellow with maroon spots. A handsome variety, and recommended as a first class yellow sort. Doz., 35c.; 100, \$2.25; 1000, \$20.00.

KRONUS. A very attractive Italian variety. Resembling America in color of flower, but its superior in every way. Per doz., \$1.00; per 100, \$7.00.

ITALIA. Immense flowers of true orchid form; center brilliant red, petals widely bordered with clear yellow; very striking and handsome; height, 5 to 6 feet; neat habit. Per doz., 40c.; per 100, \$2.00; per 1000, \$15.00.

MIXED. All varieties. Doz., 25c.; 100, \$1.25; 1000, \$10.00.

ORNAMENTAL FOLIAGED.

SHENANDOAH. A splendid red or bronzed leaved variety. The foliage is rich ruby red, exquisitely veined and tinted like some rare hothouse plant. It bears fine large trusses of beautiful waxy rose-pink flowers, and, unlike other red-leaved sorts, is a most early and abundant bloomer, highly ornamental, and sure to be in large demand when better known. The flowers are very much larger, and it blooms more freely than Egandale, which variety it resembles in habit. Per doz., 50c.; per 100, \$2.00; per 1000, \$15.00.

GEOFFREY ST. HILAIRE. Light scarlet. Bronze foliage. Per doz., 50c.; per 100, \$3.50.

GRAND ROUGE. A gigantic dark-leaved Canna; has been grown to the height of 8 ft. 11 in., with bright scarlet flowers of fair size. When large masses of dark foliage are required, this Canna can fill a long-felt want; being a fine flowering variety will add to its value. The foliage is simply superb. Per doz., 50c.; per 100, \$3.00; per 1000, \$25.00.

ROBUSTA. A giant among Cannas. Grows to a height of 6 to 8 feet, with immense, massive, tropical foliage. A single plant of this variety attracts instant attention. Per doz., 50c.; per 100, \$3.00; per 1000, \$25.00.

PRES. CARNOT. Flowers deep scarlet. Dark majestic foliage. Per doz., 75c.; per 100, \$5.00.

For Started Roots or Canna Plants and varieties of more recent introduction see page 17.

Augusta Gladiolus.

PURE WHITE.

This is a variety worthy of every florist's attention. It is as white as "Snow White" (having only a small tinge of pink in neck or throat), but in every other way its superior. First size bulbs can be depended upon throwing two or three spikes of bloom; most of the spikes with two branches.

The individual flower is very large, has much substance and lays close to the stems when cut, which makes it an excellent variety for shipping to market, as they can be packed closely without injury to the flower. They spread and open out readily when put in water.

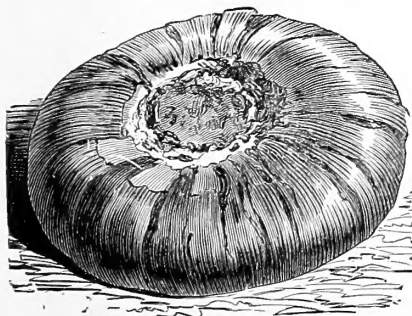

It will stand slow forcing and if the flowers are brought in before outdoor Gladiolus are ready, they command very high prices. We have watched the variety for a number of years, but were never before able to get a sufficient quantity of bulbs to offer it to the commercial grower at a reasonable price. It is a sure money-maker and no florist will be disappointed who gives it a trial. Most other good whites are unproductive and do not give more than 95 per cent. of bloom, for which reason they do not pay to grow; but the **Augusta** will return upwards of 200 per cent. of large, handsome spikes of flowers.

Single Tuberous Begonias.

Tuberous Begonias.

We have always taken great care in selecting the best strains of this grand Summer-flowering plant by visiting Europe annually whilst they are in bloom for the purpose of inspecting the crop, of which we have several acres grown, and we are safe in saying that no better or larger flowers, or truer to color and shade, can be had, no matter how much higher price is paid.

Our bulbs are all large, measuring $1\frac{1}{4}$ inches and upwards in diameter. We do not handle second size or small bulbs of Begonias.

For a time it was generally supposed these could not be grown in the open air with success, but extensive plantings of them in various sections of the country have demonstrated their adaptability for this purpose. Nothing can exceed the brilliancy and richness of their flowers. From the time the first blossom appears until all growth is stopped by frost they are never out of bloom. (See cut.)

PEONIES--JAPANESE TREE AND OTHERS.

Japanese Tree Peonies.

TUBEROSES--Double Pearl.

Owing to the very wet Summer in the South, most of the crop was destroyed, and those which survived did not develop as large bulbs as they usually do.

Bulbs, measuring 4 to 6 inches in circumference, 1000 in a barrel, \$10.00 per 1000; \$1.25 per 100; 25 cts. per doz.

3 to 4 inches in circumference (all flowering bulbs), 2000 in a barrel, \$6.00 per 1000; \$1.00 per 100; 15 cts. per doz.

ALBINO. Single, white branching variety, flowering bulbs, 25 cts. per doz.; \$1.50 per 100; \$10.00 per 1000.

SILVER LEAF. Striped foliage, single flowers, 25 cts. per doz.; \$1.50 per 100; \$10.00 per 1000.

Japanese Fern Balls.

(DAVALLIA BULLATA.)

The roots are twisted and worked together in a ball shape, about 8 inches in diameter. The young leaves soon appear and form such a screen as to hide the roots and completely cover the ball. They grow well when suspended from the rafters, and therefore do not take up any bench space. Every florist should have these on hand, as there is a constant demand the year round.

We receive them in dormant condition, direct from Japan, for Spring and Winter delivery. They also come in forms representing letters, anchors, pagodas, birds, monkeys, boats, rings, etc., all of which attract attention and find a ready sale.

Fern Balls, 7 to 9 in. in diameter, \$25.00 per 1.00; \$3.50 per dozen; 40 cts. each.

Very Large Balls, \$1.25 each; \$12.50 per dozen.

We can also offer a smaller sized **Fern Ball**, suitable for mail trade, measuring 5 in. in diameter, at \$18.00 per 100; \$2.25 per doz.; 20 cts. each.

Japanese Fern Ball.

Japanese Tree Peonies.

NOTHING can be more showy than these beautiful members of the Peony family when planted in the border or forced in the greenhouse for Easter or Decoration Day. Our collection consists of only the finest double named sorts, each of which is distinct.

Extra Strong Plants, 10 distinct double varieties. Price, 75 cts. each; \$5.00 per dozen; \$40.00 per 100.

Pæonia Officinalis Rubra Plena.

Rich Deep Crimson. The earliest of all Peonies. 15 cts. each; \$1.00 per doz.; \$7.00 per 100.

Pæonia Chinensis.

Red Varieties, 15 cts. each; \$1.00 per doz.; \$8.00 per 100.

Pink Varieties, 20 cts. each; \$1.25 per doz.; \$10.00 per 100.

White Varieties, 25 cts. each; \$2.50 per doz.; \$15.00 per 100.

Japan Iris

or Iris Kämpferi.

This is a most beautiful Summer-flowering plant. Once planted, they last for a lifetime, throwing up flowers of almost boundless beauty. Under ordinary culture, they flower towards the middle of June. While they succeed in almost any soil, they attain greatest perfection when grown in moist soil.

We offer original, undivided clumps, imported direct from Japan, in 24 choice named sorts. There is no hardy plant more popular at the present time, and extravagantly grand for permanent effect.

Price, 15c. each; \$1.50 per doz.; \$10.00 per 100.

AMERICAN GROWN CLUMPS, from best varieties, originally imported from Japan. \$1.00 per doz.; \$8.00 per 100.

Japan Iris.

GERMAN IRIS OR IRIS GERMANICA.

The true "Fleur-de-Lis," the national flower of France, and one of the most desirable early Spring flowering plants. They are perfectly hardy, grow and bloom luxuriantly, especially if planted near the edges of ponds or moist grounds, or if plentifully supplied with water, producing large, fragrant, orchid-like flowers, of exquisite colors.

CREEPING JENNY.

(*Sysimachia Nummularia*.)

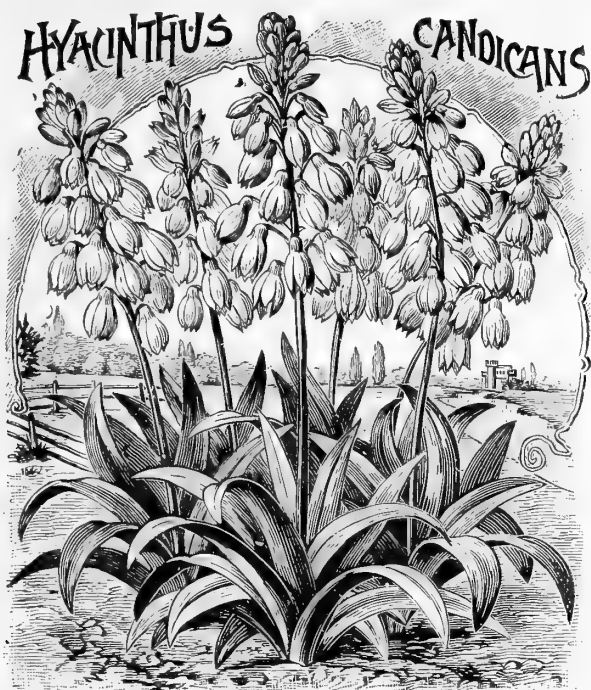

The plant generally known as "CREEPING JENNY" has of late years assumed growing importance in the estimation of the market grower of England, although there are yet comparatively few who grow it on a large scale in this country. This, of course, makes it all the better for those who do. It is a favorite with those who are fond of rock gardens, as it makes a useful drapery for rocks and boulders, as well as a beautiful green and gold carpet on level ground. As a market plant it derives its value from the fact that it is almost unrivaled as a window plant. The slender, four-angled stems, furnished with roundish, shining green leaves, hang down two or three feet, and, being borne in abundance, they make a beautiful screen for covering up the unsightliness of the pots, boxes or other receptacles on the window sills; and when the plants are all in blossom, the glistening yellow flowers stand out along the sprays like golden buttons and enhance the beauty of the general effect. Price, plants from 2½ inch pots, ready April 1st, \$15.00 per 100; \$2.00 per doz.

MONTBRETIAS.

One of the most free-blooming and showy Summer flowering bulbs. Throws up numerous flower stalks loaded with slightly drooping spikes of gladiolus-like flowers. Perfectly hardy.

Crocsmiaeflora. Deep golden orange. The best variety.
Gerbe d'Or. Splendid golden yellow.
Rosea. Soft pink.

Rayon d'Or. Yellow and brown.
Pottsii. Golden orange, outside bright red.
 Price, 15 cents per dozen; \$1.00 per 100; \$7.50 per 1000.

Hyacinthus Candicans.

Hyacinthus Candicans.

(Cape or Giant Summer Hyacinth.)

Luxuriant, free-growing, snow-white Summer-flowering Hyacinths, growing 3 to 5 feet high. They can be used with excellent effect in the center of a bed of scarlet gladiolus, as this latter comes into bloom about the same time. The flowers are bell-shaped and pendulous, pure white and somewhat fragrant. The plant is hardy and grows stronger each year, of easiest culture and splendid for groups. Very useful along walls, fences and in beds. Large bulbs, 20c. per doz.; \$1.50 per 100; \$12.50 per 1000.

Madeira Vine.

The old favorite "Climbing Mignonette."

A beautiful and rapid-growing vine, with heart-shaped leaves of a light green, and numerous racemes of feathery flowers of delicious fragrance. Very useful for hanging baskets, trellis, rock-work, etc. 25c. per doz.; \$1.50 per 100; \$10.00 per 1000.

Milla Biflora.

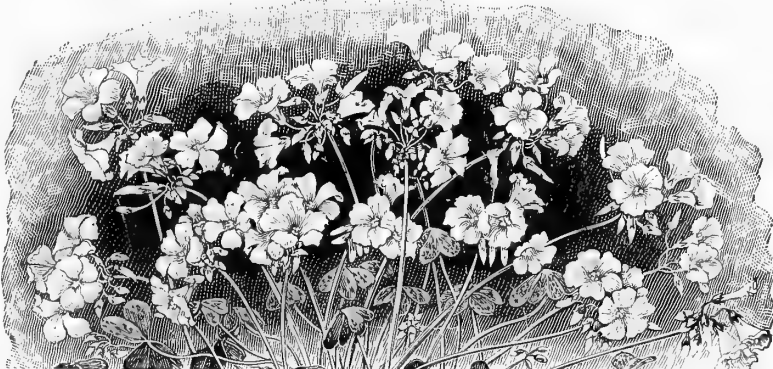

(Floating Star.)

One of the loveliest and most desirable bulbs. Flowers star-shaped, nearly 2½ inches in diameter, clear waxy white, enlivened by a frost-like sparkle; the petals are thick and leathery, and will keep for days when cut and placed in water. 30c. per doz.; \$2.00 per 100.

Oxalis.

Summer flowering. Splendid for bordering or edging, also for pots and hanging baskets. Fine foliage of the brightest possible green, and produces flowers in endless succession.

Lasiandra. Red 25c. per 100; \$1.75 per 1000.
Deppei. White 25c. " 1.75 "

Oxalis.

Pancratium Caribaeum.

(Spider Lily.)

Grows over two feet high; produces handsome clusters of pure white, fragrant blooms in the greatest profusion; adapted to either pot or culture in the house, or for Summer planting in open ground. 85c. per doz.; \$4.50 per 100.

Pancratium Caribaeum.

Richardia Alba Maculata. (Spotted Calla.)

Similar to the well-known White Calla. The leaves of this variety are deep green, with numerous white spots, which give the plant a very ornamental appearance. The flowers are pure white, with a black center; They grow freely, either indoors or out. 40c. per doz.; \$2.00 per 100; \$18.00 per 1000.

Zephyranthes.

(Fairy Lilies.)

Pretty flowers, similar to the Amaryllis, but of miniature growth. Very effective for masses or borders, flowering with great profusion during the Summer. They are also most suitable for pot culture.

Atamasco rosea. 35c. per doz.; \$2.00 per 100; \$15.00 per 1000.

Atamasco alba. 35c. per doz.; \$2.00 per 100; \$15.00 per 1000.

SPECIALTIES IN FLOWER SEEDS

CYCLAMEN PERSICUM GIGANTEUM.

AIGBURTH STRAIN.

Never before have we sent out any new strain of seed that has given more universal satisfaction, and elicited more deserving complimentary comment from our customers than has our Cyclamen.

Three years ago, when visiting England, our attention was first brought to some choice prize-winning plants, since which time we have secured all seed saved by these growers from their show specimens, and any florist wanting a truly reliable strain that may be depended upon for form, color and size will not be disappointed by sowing our seed.

This magnificent strain of cyclamen produces flowers of extraordinary size and substance. The leaves are proportionally large and very beautifully marked with silver gray. At every horticultural show where these flowers are exhibited they never fail to attract admiring crowds.

Alba Perfecta, pure white, very large,
Aigburth Crimson, rich self crimson,
Crimson King, splendid crimson,
Charming Bride, pure white,
Giganteum, pure white, tipped crimson,
Purple King, intense purple crimson,
Peach Blossom, delicate pale lilac,
Rosea, pretty light rose,
Rosy Morn, fine, rosy purple,

MIGNONETTE—ALLEN'S DEFIANCE.

To secure the large spikes of bloom, as seen in the show windows of our leading florists, often measuring 9 inches and over in length, the seed must be gathered from similar flower-heads, and not from a crop grown outdoors, as this stock has a great tendency to go back, and requires constant selection. This means devoting the best spikes to seed purposes, for which reason the true Allen's Defiance Mignonette seed cannot be sold for less than \$1.00 per pkt. of 2000 seeds.

Outdoor-grown Allen's Defiance Mignonette, 50c. per oz.

CALCEOLARIA PERFECTION.

Profusion of bloom, large and well-formed flowers, diversity and splendor of coloring, combined with a dwarf and vigorous habit, are the characteristics which have secured the supremacy of this magnificent strain of calceolaria.

PRIMULA SINENSIS.

(Sow in March for Christmas Flowering.)

Primula Sinensis.

Snowball. In offering this new pure white primula, we can recommend it as the best and purest white variety yet introduced. The flowers are very large, of great substance, perfect in shape, and very free flowering, being pure white, without any tinge of flesh, so generally found in white primulas, and a big advance on former introductions as to size of bloom and purity. The foliage is very handsome, which adds greatly to its effect as a pot plant.

Per trade pkt. of 300 seeds, \$1.00; retail pkt., 25c.

Queen of the Whites is a companion to Snowball, being also an absolutely pure white very large flower of great substance, and very free flowering. The foliage is beautifully curled and crested, very much like the other variety.

Per trade pkt. of 300 seeds, \$1.00; retail pkt., 25c.

Giant Pink. The finest primula of all, extremely large, and of great substance. The delicate carmine-pink color is particularly valuable for indoor decoration, and a specimen plant on the table always wins admiration.

Per trade pkt. of 300 seeds, \$1.00; retail pkt., 25c.

PETUNIA.

After years of continual selection and crossing, our strain of double petunias has reached a high standard of excellence, and may be confidently relied on to produce from 40 to 50 per cent. of double flowers of exquisite beauty and great size, and the blossoms that come single will be of the grandiflora type. The smallest seedlings should always be pricked out, as they are most likely to produce the finest double flowers.

Double Superb Mixed. One of the finest strains of petunia in existence. The double flowers are very large, full and beautifully formed, having the edges of the petals elegantly fringed. Per trade pkt. of 250 seeds, 50c.; retail pkt., 25c.

Single Superb Mixed. Exceedingly large and handsome free-flowering varieties; brilliant and effective in beds and pots. Per trade pkt. of 1000 seeds, 50c.; retail pkt., 20c.

Cineraria Grandiflora.

CINERARIA.

A beautiful class of plants for Spring decoration of the window or conservatory; can also be planted out in Summer. The flowers measure 2 to 3 inches across, are of white, blue, violet and crimson shades; usually two or more colors are shown in one flower, covering the plant with a sheet of bloom.

Grandiflora, Tall. Choicest hybrids, mixed, prize varieties. Per trade pkt. of 500 seeds, \$1.00; retail pkt., 25c.

Grandiflora, Dwarf. Large flowering; splendid mixed. Per trade pkt. of 500 seeds, \$1.00; retail pkt., 25c.

*Shasta Daisy, Showing Difference in Size of Bloom
Between it and the Parent Type.*

SHASTA DAISIES.

These should not be confounded with the common "American Field Daisy." The flowers are extremely large and graceful, with three or more rows of petals of the purest white, on single, strong, stiff, wiry stems, nearly two feet in length. They are perennial, blooming better and more abundantly each season, and they are not particular as to soil. Per pkt. of 50 seeds, **25c.**

ARDISIA CRENULATA.

Most beautiful and valuable of all red berry bearing plants for florists at Christmas. It is admired for its white flowers and vermillion berries, being constantly covered with either one or the other, or both. Plants usually fruit when one year old, and are invaluable for Winter decoration. Per 100 seeds, **50c.**; per 1000, **\$3.00**; per 2000, **\$5.00.**

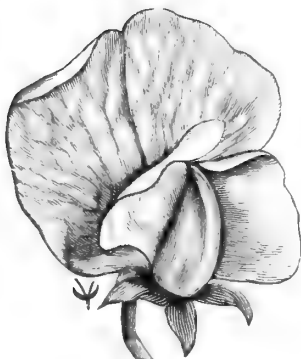

ASTER DAYBREAK.

Of American origin. Plants attain a height of 18 to 24 inches, and produce large globe-shaped flowers, of shell-pink color. Per trade pkt., **25c.**; per oz., **\$2.00.**

ASTER PURITY.

Most beautiful branching Aster, with flowers of glistening pure white. The plants grow about two feet high; in bloom, it is charming, and for cutting purposes there is no finer Aster grown. Per trade pkt., **25c.**; per oz., **\$3.00.**

SWEET PEA "CHRISTMAS."

Sweet Pea "Christmas."

Aster Daybreak.

Not only the earliest to flower in open ground, but is also the most desirable for forcing under glass for Winter cutting, as it is very dwarf in habit, permitting of close planting, and from seed sown the latter part of August, flowers can be cut during the holidays. The standards are of a bright rich pink, and the wings nearly pure white; and, whereas the flowers are as large as Extra Early Blanche Ferry, they come into bloom much earlier. This is the florist's ideal Sweet Pea. Since bringing this variety to the notice of many growers, we have yet to hear of anyone being disappointed with the result, but have many testimonials from florists who have given it a trial upon our recommendation. Price, **75c.** per lb.; **25c.** per $\frac{1}{4}$ lb.; **15c.** per oz.

PALM SEEDS

Our Palm Seeds

are collected for us in their various habitats in all parts of the world, and immediately they are in a fit state to pack, shipments are made us, and at once the crop is distributed to our customers. It will be seen, therefore, that those dealing with us receive **Fresh Palm Seeds**, and all florists know the necessity of planting **New** seeds if profitable results are expected. We are the largest Palm Seed handlers on this continent, and our ever-increasing orders attest that we have won and retained the confidence of the most critical growers in America.

SPECIALTIES IN PLANTS

NEW BEGONIA "Gloire De Lorraine"

This is decidedly one of the most beautiful and profitable plants introduced in many years. It attains a height of 15 to 18 inches, bears pea green foliage, and is fairly smothered with a profusion of soft pink flowers. It is naturally of compact, bushy form, and blossoms continuously from October to April, making an ideal plant for Christmas decoration. No establishment, large or small, is complete without this Begonia.

For June delivery, from 2¼ inch pots, \$140.00 per 1000; \$15.00 per 100; \$2.50 per doz.

Price on larger quantities, later delivery and other sizes upon application.

IMPORTED ORCHIDS.

For the past three years we have received many shipments of Orchids from reliable collectors in South America, which in every case has been very satisfactory, as the plants have arrived in good condition (the eyes well preserved) and the varieties all that could be desired. Prices upon Cattleya Trianae are higher than usual owing to this variety becoming scarce in its natural habitat. Prices upon other varieties will be found exceedingly low.

Orders Booked for Summer Delivery on the
Following Leading Kinds:

Oncidium Varicosum Rogersii.

This Orchid is undoubtedly one of the most profitable commercial varieties grown. It throws 3-foot stems, bearing as many as 170 blossoms of a rich, golden yellow, 2 inches and over in diameter, and can be successfully grown either on blocks of wood, in pots or in baskets, and flowered in January and February in a night temperature of 55 to 60 degrees.

Oncidium Varicosum Rogersii.

Boston Fern.

BOSTON FERN.

(*Nephrolepis Bostoniensis.*)

One of the most useful and ornamental of the "Sword Ferns." It is now grown by the thousand for the market in all the large cities, and is steadily increasing in popularity. In well-grown specimens the fronds attain a length of 6 or 7 feet, like plumes arching over in every direction, in a most graceful manner. This beautiful fern is excellent for outside planting in shady borders. It is a very fine plant for hanging pots and baskets on the piazza in Summer and conservatory or window in Winter.

Price, small plants from bench for planting out, May and June delivery, \$5.00 per 100; \$40.00 per 1000.

Ferns in varieties from 2-inch pots, \$5.00 per 100; \$40.00 per 1000.

GENERAL MACEO. Dark crimson maroon; foliage covered with rich glaucous bloom. Flowers are good sized, and produced freely throughout the season. Habit of growth is dwarf, stems stiff and wiry. \$2.00 per 100.

NORWAY. A very valuable white, and a great producer of fine flowers. \$6.00 per 100; \$45.00 per 1000.

NOVELTY. A very fine yellow, with an even marking of red. \$10.00 per 100.

PROSPERITY. A handsome new variety, having extra large flowers on strong stems. Color white, overlaid with rosy pink; the coloring not solid, but varied in intensity and quality, making the flower very picturesque. \$6.00 per 100.

WHITE CLOUD. A magnificent white variety; habit same as Daybreak, but taller, and a freer bloomer. Flowers large, excellent form, good substance and very full. Finely shaped and very fragrant. \$2.50 per 100; \$20.00 per 1000.

ETHEL CROCKER. Color, pure rich pink; an early bloomer, flowering continuously from October to July. Flowers average 3 inches and upwards in diameter, and have a clove-like fragrance. \$2.00 per 100.

ESTELLE. This variety is spoken of as the coming commercial scarlet. \$6.00 per 100.

Carnation Cressbrook. Back view, showing calyx.

New Rose for 1902 **MRS. OLIVER AMES.**

This grand Rose is a sport from Mrs. Pierpont Morgan, and possessing the same vigorous habit, fine glossy foliage of deep green, erect stout stem, and even more free flowering qualities. The flowers are very large, averaging four inches in diameter when in perfection. The color is a lovely soft blush with a little deeper shading on the edges of the petals, making it the most beautiful of all the delicate colored roses ever offered. Its keeping qualities are unsurpassed. In short, it is the ideal rose in size, color, form, stem, foliage and free flowering qualities.

It has taken four silver medals; namely, at the New York Show, October, 1901; Newport, R. I., November, 1901; Orange, N. J., November, 1901, and Philadelphia, November, 1901; also certificates at Tarrytown, N. Y., Poughkeepsie, N. Y., Chicago, Ill., New York American Institute, Chestnut Hill, Pa., Madison, N. J., and Burlington, Vt. It also took medal at the Kansas City Show last November.

**DORMANT,
HARDY, HYBRID
PERPETUAL
AND OTHER
ROSES.**

Selected Large Two-Year-Old Bushes. All Low Budded.

We can supply these from November to April 15. The great value of these budded Roses lies in the fact that they produce better flowers and make stronger plants in a shorter period than those grown from cuttings, and the advantage is that having no soil on the roots and being dormant, they are of little weight and can be sent cheaply by freight or express.

Alfred Colomb. Carmine crimson; a grand rose in every way.

Anne de Diesbach. Bright carmine.

La France. Peach-blossom pink; the model garden rose; blooms all Summer.

Mabel Morrison. Pure white, large, massive, perfectly-formed flowers.

Margaret Dickson. White, with pale flesh centre; extra large flower, of fine substance; strong, vigorous growth.

Magna Charta. Dark pink; one of the easiest roses to grow.

Mme. Gabriel Luizet. Light, satiny pink; an attractive sort.

Mrs. John Laing. Rich, satiny pink, delicious fragrance; blooms constantly.

Paul Neyron. Flowers 5 inches across; color lovely dark pink.

Persian Yellow. Hardy yellow rose; best of its color.

Prince Camille de Rohan. Dark crimson maroon, almost black.

Ulrich Brunner. Cherry red; a grand rose; very free blooming.

Prices of above: Dormant plants, purchaser's selection, \$95.00 per 1000; \$11.00 per 100; \$1.25 per 10.

No less than 5 of any one variety sold at these prices.

Anna Alexieff. Rosy pink, large flower.

Ball of Snow (Boule de Neige). Large, pure white, globular flowers.

Baron de Bonstetten. Blackish crimson, with vivid red shadings.

Baroness Rothschild. An exquisite shade of satiny pink.

Capt. Christy. Delicate flesh color, deepening toward the center.

Coquette des Alpes. White, tinged with blush, medium-sized flower, semi-cupped in form; a fine variety.

Duke of Edinburgh. Bright vermilion, extra large and full; a distinct and splendid variety.

Fisher Holmes. Finely-shaped flowers, dark velvety crimson.

Gloire de Margottin. Dazzling red.

Gen. Jacqueminot. Brilliant crimson; the most popular rose.

Gen. Washington. An old garden favorite; red, shaded with crimson and carmine, large, full and flat.

Geant des Battailles. Deep fiery crimson.

John Hopper. Bright rose, with carmine center, large and full; esteemed by all who grow it as of the highest order.

The Crimson Rambler.

Magnificent Pyramidal Clusters of Rich Crimson Roses. Every Cluster a Perfect Bouquet of Roses in Itself.

Its Growth.—It is of rapid, vigorous growth; attains a height of 15 feet. The flowers are produced in trusses, pyramidal in shape, good specimens, measuring 9 in. from base to tip and 7 in. across, fairly covering the plant from the ground to the top, so that it is one mass of glowing crimson. The color is superb, and remains strong and vivid to the end. The profusion of bloom is marvelous; over 300 blooms have been counted on one shoot.

As an Easter Plant.—It is essentially a garden rose, but makes a magnificent specimen in a pot or tub.

Large dormant plants, American-grown from open ground, 2 years old, 4 to 6 ft. long, with many branches, 25c. each; \$2.00 per doz.; \$15.00 per 100.

Second size, 2½ to 4 ft., 15c. each; \$1.50 per doz.; \$12.00 per 100.

RHODODENDRON MAXIMUM

—AND—

Kalmia Latifolia.

The use of collected Rhododendrons and Kalmias for quickly and permanently producing fine landscape effects is now well established and, with any reasonable expenditure, there is no other possible way to obtain the results to be had by the use of these magnificent hardy broad-leaved evergreens.

Our supply and advantages being unlimited, we are prepared to accept orders for Fall or Spring delivery, with an assurance of prompt service and satisfactory material that must give good results.

In carload lots we collect sizes from 2 feet to 10 feet in height, with corresponding diameter; the number to the car—say forty or fifty to three or four hundred—depends entirely on the size.

Price in carload lots, \$150.00 per carload.
Specimen plants, from 50c. to \$1.50 each.

GARDENIA FLORIDA.

Much sought after and invaluable for boutonnières. Plants 20 to 30 inches high, well fibrously rooted and well branched, which will give plenty of bloom; suitable for 12 inch pots. Price per doz., \$10.00; per 100, \$75.00.

Plants 15 to 20 inches, well rooted and branched, ready for 6 inch pots. Price per doz., \$7.50; per 100, \$50.00.

Rooted cuttings, twice transplanted, slightly branched, about 6 to 8 inches high. Price per doz., \$3.50; per 100, \$25.00.

SPIRAEA ANTHONY WATERER.

This is a very valuable plant of recent introduction. Superior to all existing varieties of Spiraea in its richness and beauty. Bears bright crimson flowers profusely, and blooms continuously the entire Summer. Equally suitable as a florist plant for forcing for Easter decoration:

Strong bushy plants, each, 15c.; per dozen, \$1.00; per 100, \$8.00.

TRITOMA PFITZERII.

Very free blooming; color pure bright crimson, without a tinge of yellow or orange. Without a single exception; it is the most desirable garden flower. It has created a sensation in the New York cut-flower market, and is largely used for decoration by the best florists. Per dozen, \$1.50; per 100, \$10.00.

MAGNOLIA.

Strong plants, \$1.25 each; \$12.50 per dozen. Following varieties:

Speciosa, Soulangeana. Conspicua. Lenne, Glauca.

AZALEA MOLLIS.

An exceedingly useful shrub, either for florist forcing or out-door planting. Perfectly hardy in all sections of this country, and is one of the showiest of all shrubs. Plants well covered with buds.

GENERAL LIST OF VEGETABLE SEEDS.

We furnish our retail packets of vegetable and flower seeds at 25 per cent. off retail prices when one dollar's worth and upward is ordered. All other prices in this Wholesale Catalogue (other than for retail packets) are net.

We will deliver free anywhere in the United States, packets, trade packets, ounces and quarter pounds, but on larger quantities buyer pays forwarding expenses, viz., on pounds, pints and quarts, pecks, bushels and barrels, though we will prepay charges upon the aforesaid "large quantities" if at the rate of 8c. per pound or 10c. per quart is added to the prices.

Half a pound will be supplied at pound rates; half a peck at peck rates; half a bushel at bushel rates.

On purchases of vegetable seeds from this List to the value of \$10.00 and upward, we will deliver free to any railroad station in the United States, provided that at least half of the order is composed of small seeds—that is, any vegetable seeds in the List other than Peas, Beans, Corn and Potatoes. If your own order does not amount to \$10.00, you can avail yourself of this offer by combining your order with one or more of your neighbors.

GRASS SEED.

Anglo-American Lawn Grass Seed.

Suitable either for **Lawns, Golf Links, Croquet Grounds, Cricket Fields, or Tennis Courts.**

We guarantee our mixture of this brand to be equal to any mixture or brand offered by other firms, at sometimes twice our price.

Our formula used in the preparation of the Anglo-American mixture is based upon that used in England for making the celebrated lawns of that country. The knowledge of this formula was acquired by ourselves after many years of experiment in Europe, and the U. S. Grasses in the English formula found unsuitable to the American climate are eliminated and replaced by other more desirable sorts.

Lawn Grass is sometimes quoted by the standard bushel of 14 lbs., which is confusing, and which should be borne in mind when comparing prices, as 14 lbs. of our Lawn Grass Seed would cost but \$2.45.

The Anglo-American Lawn Grass Seed is put up in one quart and four quart carton boxes, $\frac{1}{4}$ bushel, $\frac{1}{2}$ bushel, and one bushel canvas bags.

Wholesale price: **Per quart, 15c.; 4 quarts, 55c.; $\frac{1}{4}$ bushel of 5 lbs., \$1.00; 1 bushel of 20 lbs., \$3.50. One-half bushel at bushel rates.**

To dealers who wish to sell our Lawn Grass we will supply it in quart packages at \$12.50 per 100 quarts, but no less than 25 quarts sold at this rate.

Special Grass Mixtures for Hay and Permanent Pasture.

Will Last Many Years Without Renewal.

Consisting of the following varieties: **Orchard Grass, Meadow Foxtail, Sheep's Fescue, Rhode Island or Creeping Bent, Hard Fescue, Sweet-Scented Vernal (True Perennial), Meadow Fescue, English Rye Grass, Italian Rye Grass, Red Top, etc.** Three bushels of this mixture is sufficient to seed an acre, but where the land is poor a larger quantity will be necessary.

For Hay and Permanent Pasture for	Light soils	\$2.50 per bushel of 14 lbs.

NEPONSET FLOWER POT.

Neponset Pots.

Plants and cuttings packed for shipment in "Neponset" Flower Pots have a better protection, and are far more pleasing than when wrapped in papers.

The "Neponset" Pots have a decided advantage over clay pots; Absolutely Unbreakable, and so Light in Weight as to secure an immense reduction in freight charges. Experience proves that "Neponset" Pots are particularly desirable for growing bulbs and other plants which require a great amount of moisture.

The life of these pots is prolonged if, when in use, they rest upon wood rather than upon earth.

"THREE-LEG" BRAND SHEEP MANURE.

Pulverized and Prepared by special process by which the ammonia is retained and all weed seeds killed, making it specially useful either for florists' use or top dressing.

During the months of October and November the sheep are brought in from Dakota and Montana and collected in covered barns and fattened prior to killing. They are fed upon screenings from the grain elevators of the Northwest. The droppings are taken to a drying plant and exposed to a moist heat of 350 degrees, long enough to kill the germ of any seeds which they may contain, and afterward dried and passed through a

20-mesh sieve, which insures a uniform product.

The article in commerce usually sold elsewhere is ordinarily dried by being exposed to the sun and air and allowed to ferment, by which process it loses most of its fertilizing qualities and ammonia. By the method used in preparing the manure we send out the ammonia is retained, making it a much more valuable article.

The grain upon which the sheep are fed is rich in nitrogen, and therefore the product we sell has a larger value than what has heretofore been sold under the same name.

Price of our Pulverized Sheep Manure: 2 lb., 12c.; 10 lb., 40c.; 100-lb. bag, \$1.50; 200-lb. bag, \$2.75; ton of 2000 lbs., \$25.00.

FALL BULBS

For Forcing and Winter Blooming.

Our having become identified as the main source of supply for the best stocks of important Bulbous Roots, supplying as we do the principal Florists in the United States and Canada, and also many of the large Parks and Conservatories, as well as exporting large quantities for the London market, all growers of Bulbs should not fail to send us a list of their requirements for estimate.

LILIUM HARRISII AND LONGIFLORUM BULBS.

The success that has attended our efforts in securing the best stocks and freest from disease of this important Florist Bulb, so much used for Easter flowering, has already established us with the largest growers, who look to us regularly for their supply.

We visit Bermuda each year during the growing season for the purpose of inspecting and discarding

from our large crops, grown especially for our trade, any spurious type or any that may seem affected by disease.

Our exhibits each year of **EASTER LILY BULBS** in the trade exhibit at the Convention of the Society of American Florists have always created deep interest and admiration, their superiority over others being commented upon.

We are the only firm in America that has been awarded a Certificate of Merit by this Society (the highest possible award) for Lilium Harrisii and Longiflorum Bulbs, an imprint of which is here given.

Wholesale Fall Bulb Catalogue mailed on application.
